WINTER 2023

Paw Prints

Our Favorite Breed  Is Rescued

LOOKING BACK AT 2022

As we look back at 2022, this year seemed like things were finally getting back to 'normal' in the world...which I think we are all grateful for. Our fundraising events were back on schedule...and were well attended, we recruited new volunteers and took our shelter animals out to more events in our community.

We started the year with the loss of animal advocate Betty White. We participated in the Betty White Challenge in January and we will do so again in 2023. This challenge encourages people across the world to donate to a local animal welfare organizations in honor of Betty and to help the animals she loved so much.

In 2022, the one thing that did change was the length of stay for our animals at the shelter...during covid our animals were only at our shelter for a very brief time. But this past year... unfortunately it turned out to take much longer for an animal to be adopted...from days to weeks... to months, BUT they still were eventually adopted. And we are happy to report we did not have any of our animals get returned to us due to people going back to work....post covid. That tells us we have done a good job with our adoption application process, and we have done our due diligence in helping our animals in our care find the right family....and we helped our adopters find the right pet for them. Many of our adopters

were repeat adopters and quite a few were referred to us by other folks who have adopted from us...not just locally, but across the state. Believe it or not, many people were willing to travel from a distance to adopt a furry friend...more than 60% of our cats and dogs were adopted outside of our county...across the state and out of state! The adoption craze was still happening the first part of the year....In January, we had 6 fluffy puppies up for adoption that we named after Alvin and the Chipmunks characters...and we received well over 200 applications and more than 525,000 views on Facebook and our phone was ringing off the wall. Definitely the 'Chipmunk' puppies were the most memorable puppies. Later in the year we had another group of 6 puppies arrive and we named them our "Rock-star" puppies...and of course they were a huge 'hit' with all of our adopters! We

try to be creative with our cats names too - we had Willy Wonka, and the chocolate factory kittens, the candy bar kittens and the Adams Family kitties!

One of our biggest challenges in 2022 was the amount of cruelty cases we had this past year. In the first week of September, we had several cruelty cases that all occurred in 1 week which resulted in bringing in 24+ dogs...numerous cats...rabbits and 27 pot belly pigs...and as SPCA luck would have it, many of the pigs were pregnant! Definitely this past fall has been most stressful for our team, due to the large number of animals in our care...and all of these cases are taking months to resolve until the court dates occur, which is out of our control.

Many people don't realize how long the cruelty case process takes and the daily expenses that occur during a cruelty case when caring for the animals and depending on the severity of the condition of the animals there are medical bills that keep mounting throughout the case. A majority of the time we never receive any compensation or enough restitution to cover our costs associated with these cases. But hopefully, with the help of the NYSAPF New York State Animal Protection Federation things will change in the future with our legal system to help protect animals who are innocent victims in animal cruelty cases, but to also receive justice in a timely manner for them.

SPCA ISN'T JUST ABOUT CATS AND DOGS

Most people normally think The SPCA is just about helping cats and dogs...and most of the time that is true. But, over the years we have brought in many different types of animals.

We have had horses, donkeys, mules, cows, goats, sheep, chickens, ducks, lizards, snakes, mice, fish, domesticated rats, guinea pigs, rabbits, turtles, ferrets, hedgehogs, hamsters, gerbils and degus...and this past year have had 27 potbelly pigs!

When we have situations like this, we need help from our community and since we don't have a barn on site it always amazes us when people reach out to lend a hand to house farm animals.

And there are others who help us to transport large animals...others that help with feed or hay and supplies needed and help in caring for them too.

SNIP & SPAY CLINIC

Now that our Snip & Spay clinic has been in existence for 3 years, not only have we learned that spay & neuter services are greatly needed in our community, but it is absolutely critical.

We have spay & neutered over 5,000 animals to date and at any given time there are over 100 applicants in the pipeline needing services. We are proud with the positive impact we are having in our community by being able to offer low cost affordable spay & neuter services. Our clinic was made possible by a grant from the ASPCA in NY city and a few generous private donors and we are forever grateful to them.

This has been a dream of ours and now that it is a reality, we can truly see the extreme need and appreciation we see from pet owners. Even if all of your pets are fixed...you can still help to reduce the amount of 'accidental' pregnancies by paying it forward by making a donation to the Snip & Spay Clinic or you could purchase a gift certificate for either someone you know...or someone you don't know so they can utilize the spay/neuter clinic many times people have multiple pets that need to be spayed or neutered and they need a little financial help.

And let's not forget there are many community feral cats out there too that need to be fixed and donations can also be made towards the TNR cats.

Spay it forward!

MEDICAL CASES - HOW YOU CAN HELP

Many times animals arrive at our shelter at their very worst, they have no owner, and they are in need of medical attention, and we do our very best to provide them the care they need to survive. This past year we had 2 kittens that were diagnosed with lung worms, something we don't normally see, when this happened they were tiny at only 1.5 lbs. and the road to recovery was long and prognosis was guarded.

We had another kitten arrive who was keeping warm under the hood of a truck and sustained injuries when the truck was started, we are happy to report he made it and was adopted. We have quite a few animals that come in that were hit by cars and just lying on the roadside or found in a ditch, we also have many kitties that come in missing eyes or have severe infections in which they lose their eye.

We have dogs or cats that are elderly with numerous health issues, or they arrive in very rough shape, and we give them the care needed and the opportunity to get well. We have had several hospice cases, along with other animals needing leg amputations, a diabetic puppy and

others with severe dental disease.

We have an animal Emergency Medical Fund account set up for people to donate to as this helps in having funds available to provide medical care when animals arrive on our doorstep in need of immediate medical attention. If you would like to donate to our Emergency Medical Fund, you can do so via PayPal or you can send us a check or call our shelter to donate via your credit card, every dollar raised helps us to continue to save lives.

SPOTLIGHT VOLUNTEERS

The Dog Ladies

ANN GARDNER HARRIS

Ann Gardner Harris has been volunteering at the shelter for a few years, assisting in all aspects, primarily walking our dogs, sometimes helps with cleaning our cats and doing anything that is needed and always with a smile! Now that Ann is retired from the Wellsville School district she is now able to frequent our shelter more often. Ann has helped many of our shy dogs who need that extra TLC, patience and socialization. She has also helped some of our new arrivals to feel at home... even though it's sometimes a stressful environment for a dog, she understands that and gives these dogs a warm welcome...we swear they are smiling when they see her walking down the hall to greet them.

No matter what the weather is like outside both these ladies are here helping to walk our dogs whether it's cold, hot, raining or snowing they are both very committed to their volunteer work, and they show great compassion to our dogs - Both Ann & Carol are making a difference in a dog's life every day they are here.

CAROL O'HAGEN

After retiring from the Whitesville School, Carol was interested in volunteering some of her time at the shelter...and I am sure when she signed up to volunteer she never imagined how addicting volunteering really is!!! Carol heads to our shelter early in the morning several times a week to help walk our dogs while our staff are cleaning kennels...and what a huge help she is. Her calm demeanor is welcomed by many of our dogs and some of her favorites here are some of our longer term dogs - that she has built a trusting relationship with. Carol has done wonders with both Bocephus and Tulip...and you can tell they absolutely love her.

VOLUNTEERS

Giving Back

The SPCA for more than 110 years has always been helped by volunteers...who in turn are helping the shelter animals. Since we do not receive any funding from the county, state or federal funds...we have to raise money via donations, grants and good old fundraising events.

Our annual Theme Basket Auction is our largest fundraising event, and it is also when we count on our volunteers to help to make it all happen!

This year our fundraising team was sweating it out knowing that this year we would have to move our event to a different location, but we also would have to put together over 400 baskets in a new location and then transport over 400 donated baskets to a new event site with a very small window for set up time before the doors open for our event.

Of course, it was a daunting task and we put together a game plan - BUT we needed many more volunteers to make it happen and large trailers to move everything. And then our prayers were answered when we received an email from Saputo Cheese in Friendship offering some of their employees to come over and volunteer to help us out...from loading all the baskets....unloading them, setting up for the event and help with distributing baskets to those who won.

Thank you to the employees from Saputo Cheese who volunteered their time to help us...they most certainly came to our 'rescue'!!! We also want to give a big paw up to Scott & Vicki Middaugh & Bill Fish for the use of their trailers and Kevin Murphy for trucking our baskets from site to site, and Al Wilmart's box truck.

THANK YOU AND WE APPRECIATE YOU BOTH!

A SENSE Of Purpose

Natalie Skwarek

A decade ago, my search for a sense of purpose led my heart to the cause of animal rights and rescue. Yet I was timid and felt that I lacked a strong voice that could make a difference.

I also didn't know where to start but came to the realization that the best place to change the world begins within your own community. The SPCA happened to be five minutes away from my home, so I drove over and shyly walked through the door, inquiring if there were any volunteer opportunities for me. To my delight, the shelter welcomed me with open arms.

Initially, the bulk of my volunteer experience consisted of assisting shelter staff with day-to-day upkeep, while engaging the residents with pets and conversation during breaks. As time passed, I noticed a lot of faces seemed to be waiting a long time to be adopted, some several months and others even years. So, I shifted my focus to spending time with the longest residents, sitting with them week after week to see who they really are. I looked into their eyes, studied their body language, tuned into what they were telling me, and tried to understand what they've went through to get to this point of needing someone to love them.

As I grew to truly know them, I desperately wanted to be the one to fill their need for love. I adored each and every one as if they were my own and I would have taken the whole shelter home if I could have (and I did in fact adopt a number of residents over time). I concluded that the next best thing I could do is to promote homeless animals so that they could have a better chance of finding homes and happy lives with others.

I decided that I would put into words what fur babies wish they could say, if they could talk to the world. With that as my driving force, I started taking pictures and writing stories to spotlight shelter animals on social media, with cats being my primary subjects. Since the launch of my mission, I've created hundreds of stories to date. Each one is filled with love, care, and the understanding that I may need to try again and again until the right person comes along and falls in love with the animal speaking through me.

In stepping out from behind the scenes and sharing how animals have changed my life and given me my voice, I hope to encourage people to adopt those who often slip through the cracks and end up being without a home for way too long. Perhaps they are older or have special needs. Maybe they are sick, or shy, or scared. Or they tried their best to be noticed but somehow just weren't. These animals are also precious and deserve their happily ever after. So please don't be afraid to ask about them, to take a chance on them, and most importantly, to love them. You will be the one to bring sunshine into their life, and they will surely bring a beautiful and unforgettable friendship into yours.

LLOYD

Back in August we were lucky enough to have Lloyd a rather famous & very special dog from the Niagara County SPCA come and visit us for a day...as we were on his bucket list.

For those of you who have not heard or have not seen the Lloyd story on Facebook - it's an incredible story of a senior hospice dog that arrived at the Niagara County SPCA as a stray in very rough shape and his prognosis was poor.

Well, that did not discourage Lloyd.... he is having the time of his life while working through his bucket list. On his visit to Allegany County we rolled out the red carpet for him, a blind date was set up for him at the shelter with our hospice gal Loretta and then we toured him around the county to the annual Allegany County senior citizen picnic, Bradley Gardens, Wellsville Country Club for a ride around the golf course, the Texas Hot for lunch, the Giant for some special fresh baked dog biscuits and to the Shear Farm to meet a pot-belly pig!

Lloyd is an inspiration to us all... he has helped to raise awareness and motivate people to adopt shelter animals at a time when shelters have been overwhelmed and struggling with being at full capacity and he has touched the hearts of many people.

**Thank You To All
Of Our Volunteers & Donors
For Caring And Helping!**

DRAKE

Drake arrived at the SPCA as a 3 legged 5 month old puppy who had been hit by a car and luckily some very kind people at a shelter in North Carolina took him under their wing, to spare him from being euthanized. Efforts were made to plate his leg since he was so young and still in growth stage, but during surgery it was clear that the damage to his bones was too great, and his leg was amputated.

Another veterinarian at the practice offered to foster him during recovery until transport for him was an option. Unlike so many transport stories of saving dogs from unnecessary euthanasia in southern shelters, this is a case of an North Carolina shelter actively saving a life and sending it north to have a better chance at life.

We at the SPCA have always had a soft spot in our hearts to help the special needs animals out there...and we have been very successful at adopting out special needs animals.

When we put his story online we received an overwhelming number of people interested in adopting this very special puppy dog from all over the northeast!

His new owners are thrilled with

their new addition to their family and here is what they had to say: “We knew there was something special about Drake the moment we saw his picture and knew we wanted to give him the best life we could and honestly he has blessed our lives more than he will ever know.”

“Drake and our chocolate lab Tank truly have become inseparable brothers. They play together, nap together, walk together and tackle all adventures together. This February will be a year of having Drake and he couldn't have fit into our family any better. He is the sweetest, most gentle dog and greets everyone with the softest kisses. He is a ball of energy and loves nothing more than being outside and even enjoyed swimming and playing fetch in the lake this past summer.”

Some people look at him and see a disabled dog but the Drake we've grown to know, and love doesn't let it define him. He walks faster than Tank, runs faster than Tank, plays harder than Tank and can swim and overcome any obstacle in his way.”

“He loves playing fetch, catching his ball, playing tag with Tank, chasing the squirrels, trips to the pet store, car rides and anything involving being with his family.”

“His determination, sweet and loving heart truly make him the most special dog and a blessing to our family.”

BUDDY now CISCO

Buddy was a young dog that ended up in a shelter no fault of his own – he was always let loose outside...unsupervised as a puppy and a neighbor had threatened to shoot him...the family decided he would be better off at the local dog pound; he then made his way over to the SPCA. When he first arrived at the shelter staff called him a poor soul, as he was having a very hard time adjusting and very scared. He soon started to relax and understand that we were here to help him and care for him.

Buddy finally was adopted, and his new family changed his name to Cisco, and when he was adopted he was a little scared and tentative when he first arrived in his new adoptive home but has quickly warmed-up and gotten comfortable with his new home and family.

His new family says: “We were expecting to hunker down and train a high energy puppy, but he came trained! Fast forward about 3 months, and he's made himself right at home with the family.”

“Our young kids love him, and Cisco does so well with them. He has

brought our son out of his shell and tamed our son's mood. He brings joy and an abundance of serenity to our home.”

“Overall, he enjoys his daily walks and runs around the back yard He's a big softy and loves intimate hugs and cuddling whenever he gets a chance. He loves play toys, but quickly destroys the stuffed variety. Virtually indestructible toys are a must!”

“Cisco is a pleasure to have as a companion and new member of our family. We're so happy with him and look forward to many healthy and happy years to come!”

MURDOCH

On September 16, a 3 month old kitten was found in a graveyard in Cuba, the caller said he was missing one eye and the other was extremely infected and swollen. When we received the call, it was when the SPCA had closed for the day – we did not have any medical staff available as they were gone for the day, we asked the caller to get the kitten immediate medical attention and referred them to the new Urgent Vet Care in Olean. The Good Samaritans who found him named him Stray Charles and brought him to Enchanted Mountains Urgent Veterinary Care (EMUVC) where he was diagnosed with a nasty upper respiratory infection which needed to be addressed before the infected eye could be removed. Stray Charles was surrendered to the Allegany SPCA, but not before Chris (the Manajani-tor at EMUVC) fell in love, licked the kitten and said no one else could have him.

After an initial stay with Allegany SPCA, Chris began fostering Stray Charles to better address his persistent URI so he could have his surgery. After much internal debate, Chris renamed the kitten Murdoch (for Matt Murdock, Daredevil, from Marvel Comics) and Murdoch set about taking over his apartment. Once Murdoch was better, he returned to the Allegany SPCA to have his eye surgery and to be neutered. He hell-hated his e-collar and, even when sedated, he would fall asleep with all four paws trying to remove the cone! LOL

Now, two months later, the cone is gone, the stitches have been removed and Murdoch is busy making everyone wonder if he's actually blind even though his eyelids are sewn shut. His favorite pas-time is hiding behind the pillows and jumping out to attack any exposed hands. Although he can find a hand without sight, he can't seem to get good aim at the litter box, as his most recent deposit ends up spreading 90% of it outside the litter box. Also, the good people at Gypsy Soul Nutrition next to EMUVC keep trying to steal Murdoch...But I am not giving up this very special and resilient kitty...He was heaven sent!

ANGELA

EARLY CHRISTMAS GIFT

Many people have heard the story of Angela...one of our longest resident cats, she was just coming up to her 2 year anniversary of living at the SPCA and we had done numerous Facebook posts and we did get interest on her, but it just never worked out with any of her meet and greets. From never having a home to becoming the shelter's *longest* resident, she was starting to feel hopeless and defeated. She initially was found hanging out in the woods and it appeared she was used to living outdoors and searched high and low for safety, happiness, and love. So, when the shelter came to her rescue one unexpected day, she was ecstatic,. But never thought she would be at the shelter for 2 years. As one of our hallway cats she is allowed to roam loose with a few cat friends and has complete freedom to stroll the cat hallway and every opportunity to meet her special someone...but that never happened, until a recent FB post we did about her and special person submitted and application...drove 2 hours to meet her and off she went to her new home.

We are so happy to report she is fitting in with her new cat friends and her humans who gave her that early Christmas gift of adopting! Her new owner just emailed us an update on Angela: "She found a stuff cat toy that she liked to lay next too and also enjoys the window to look out at the birds. She is amazing and lovable and has fit right in. Thank you for taking such good care of her for so long."

POSSUM, NORA & WINONA

AND THEN THERE WERE THREE

After losing my beloved beagle a year and a half ago, I made the decision to be pet-free. As much as I missed having another living four-legged being in my house, I got used to being able to go away and not worry about a pet-sitter. But as the time went on, I missed that companionship more and more. After all, I have plenty of space to share in my home and there are lots of pets looking for their forever homes. But maybe another dog just wasn't the right choice for me...or the dog for that matter. I work a full-time job and my children and grandbabies all live out of town, making for occasional day trips or weekends away. But a cat might be nice...not a kitten, but a full-grown cat. Well, two cats so they can keep each other company, right? Low-maintenance, self-entertaining little four-legged friends to share my home with.

Enter Possum and Nora...scrolling through Facebook one day, up pops a post in my feed from the Allegany County SPCA featuring a "bonded pair" of cats that hoped to be adopted together.

Perfect! I wanted two, they wanted to be together, long story short I sent in my application and a few days later went to meet my fur babies. Adorable...but one problem. Winona...oh Winona. She pulled at my heartstrings from the minute I walked in, refusing to leave the couple alone. When I opened my pet carrier to put Possum and Nora in, guess who jumped in and made herself at home. Not Possum. Not Nora... BUT Winona. No, I told myself, I came for two, not three cats. So, Winona is taken out of the carrier and Possum and Nora are put in. Winona is crying, reaching into the carrier and making a heartbreaking scene, trying to reach into the carrier, but I had a concert to get to that night and really needed to get home. Of course, I could not stop thinking about her. Really, I told myself, having three cats isn't much different than having two, right? I still have to feed them, scoop litter and vacuum up fur. So, you guessed it, I went back and adopted her, too.

Best. Decision. Ever! Thank you, Allegany County SPCA. - Misty Reed

DAISY

We had been interested in Daisy for quite awhile... but she could not be adopted as she had just had puppies.

When we had our first meet and greet with Daisy we brought our other dog Ranger...We had to do several meet and greets with them because they didn't seem to show any interest in each other....and now we can't keep them apart!!!

We fell in love with Daisy as soon as we met her and decided we wanted to adopt her. We have had Daisy for just over a year now and we could not be

happier.

She and Ranger have become best friends and she has gained so much confidence. In the past year, she has grown to love hiking and camping...visiting several state and national parks. She now has her AKC canine Good Citizen certificate.

She is the sweetest little girl and we cannot imagine our lives without her. Thank you so much for the wonderful work you do...it truly changes lives!

Ashley, Arthur, Ranger & Daisy

IN MEMORY

HARPER

A SPECIAL THANK YOU To Our Clinical Staff

Right before Covid hit, we had a case we had been working on for quite a while that involved dog fighting & dogs being kept in bad living conditions and the injured dogs not receiving medical attention. A day I will never forget is when our investigator arrived at the shelter with an injured dog named Harper - one look at her and it was certain she was a victim of dog fighting. I won't go into detail, but I will say despite the cruelty, the injuries she sustained both mental and physical, this dog was resilient. Somehow, she still loved & trusted people and she had a spirit & drive like no other dog. The memories and Harper stories we have are many...she was an incredible dog, and she will never be forgotten! We love you Harper!

A SPECIAL THANK YOU To Our Dedicated Staff

Donate Today

Donations made to the SPCA are tax deductible and a great way to help the animals at the SPCA. Many people like to make donations in memory or honor of both people and pets.

There are several advantages to giving to a 501c3 charity including, creating good will, the feeling you get knowing you have made a difference in your community and the personal tax benefits by IRS approved tax-exempt entity, like ours.

Also, our charity is useful in estate planning as well. We accept donations of stocks, securities annuities, life insurance, collectibles and pledges. All donations go directly to our SPCA.

Donations can be mailed to SPCA, P.O. Box 181, Belmont, NY 14813 or you can donate via PAYPAL by clicking on the donation link on our website or via our Facebook page.

Shelter Needs

- Wood pellets
- Dog & cat treats
- Dog & cat toys
- Catnip
- Paper towels
- 13 Gal. Garbage bags
- Dry Kitten food
- Canned dog, cat and kitten food
- Dry cat food, Purina One, Purina Pro Plan or Cat Naturals
- Collars & Leashes
- Dry dog food, Purina Pro Plan
- Towels & washcloths
- Blankets
- Hand Sanitizer
- Gift cards Tractor Supply
- Volunteers and monetary donations are always welcome!

THANK YOU!

\$20,000 MATCHING Gift Challenge

**FURRY FACES
MAY CHANGE
BUT THE NEEDS
NEVER GO AWAY**

Any donation or pledge made to the SPCA in the next 30 days will be MATCHED 100% up to \$20,000 by our Angel donor. Imagine that...every dollar you donate will be DOUBLED and together with your help and the generosity of our Angel donor we can make sure the animals in our care are provided for.

We at the SPCA Serving Allegany County want to thank you for all of your support and ask that you please consider donating to the SPCA. Thank you in advance for donating...the SPCA is still in existence today... 111 years later due to the generosity of our donors!

DONATIONS

With 2022 almost in the books, it's time for some end of year tax planning. Did you know that the SPCA Serving Allegany County is a non-profit 501c3 tax-exempt charity and we do NOT receive any governmental funding? Our SPCA solely exists due to donations, fundraisers, grants and bequests. SO why not let the SPCA help you save big money this tax season?

Donations made to the SPCA are tax deductible and a great way to help the residents and animals of our country. Indeed, there are several advantages to giving the charity including, creating good will, the feeling you get knowing you have made a difference in your community and the personal tax benefits knowing that Uncle Sam is getting just a little bit less from your pocket.

Although our friends at the IRS keep a watchful eye on charitable deductions, if you donate to an IRS approved tax-exempt entity such as ours, and keep track of your paperwork, it makes the tax season much easier for you and your tax preparation professional.

Also, our charity is useful in estate planning as well. We accept donations of stocks, securities, annuities, life insurance, collectibles and pledges.

Donations can be mailed to the **SPCA, P.O. Box 181, Belmont, NY 14813** or you can donate via PAY-PAL by clicking on the donation link on our website **www.SPCAallegany.org** or via our FaceBook page... you can also call the shelter or stop in to donate via credit and or debit card.

Will my donation stay in Allegany County? ABSOLUTELY. All of the donations to the SPCA Serving Allegany County remain here. Although we are the only SPCA in our county, we are not affiliated with

county government at all. We receive no governmental stipends or financial support in any manner and your donations are greatly appreciated as we are totally privately funded by animal loving people just like you.

How much can I donate? Typically, as much as you want! However, please consult your tax professional as certain types of donations can have other implications on your taxes. That being said, there are typically no limits on monetary charitable donations for most tax payers.

What documentation must I keep if I donate to the SPCA Serving Allegany County? For monetary donations above \$250 you must keep a written confirmation from the SPCA that has our name, the date and the amount you gave on it. We are only required to provide these for donations over \$250 and we do just that. If you are giving less than \$250, generally a canceled check, credit card receipt/statement or bank record is sufficient to satisfy the IRS.

2023 Fundraising Events

- January - Radio-thon 103.5 WJQZ
- February - Show the SPCA some love
- April - Paw Prints: Prevention of Cruelty to Animals Month
- July - Wellsville Balloon Rally
- August - Scramble 4 Animals Golf Tournament
- October - Theme Basket Auction
- December - Holiday Cookie and Craft Sale and Pet Pics with Santa

SPCA Paw Prints Newsletter

Serving Animals and People in Allegany county, NY

MISSION

The SPCA's mission is to attend to the needs of the abandoned, neglected, and abused animals of Allegany County. Change is constant at the SPCA shelter. Animals in great need of care and compassion continually arrive as others are adopted out into their forever homes.

ONE-CLICK DONATIONS

You can also make convenient donations to the shelter or memorials online on our website — just click on Donation and PAYPAL!
